HOW TO USE THE SERVICE PARTS MANUAL

1. WHEN THE PART NUMBER IS NOT KNOWN

- Determine the function and application of the part required. Turn to the INDEX OF MAJOR COMPONENTS and select the most appropriate component description.
- Turn to the page number indicated and locate the part description in the parts list. Read the full accompanying description for specific information regarding the part that was not shown in the index.
- From the parts list, obtain the item number assigned to it and confirm that the part selected is correct by verifying it with the pictorial representation on the illustrated page.

2. IF YOU KNOW THE PART NUMBER

- Turn to the page number indicated and locate the part number in the parts list. Refer to the accompanying description for specific information regarding the part.
- From the parts list, obtain the item number assigned to it and confirm that the part selected is correct by verifying it with the pictorial representation on the illustrated page.

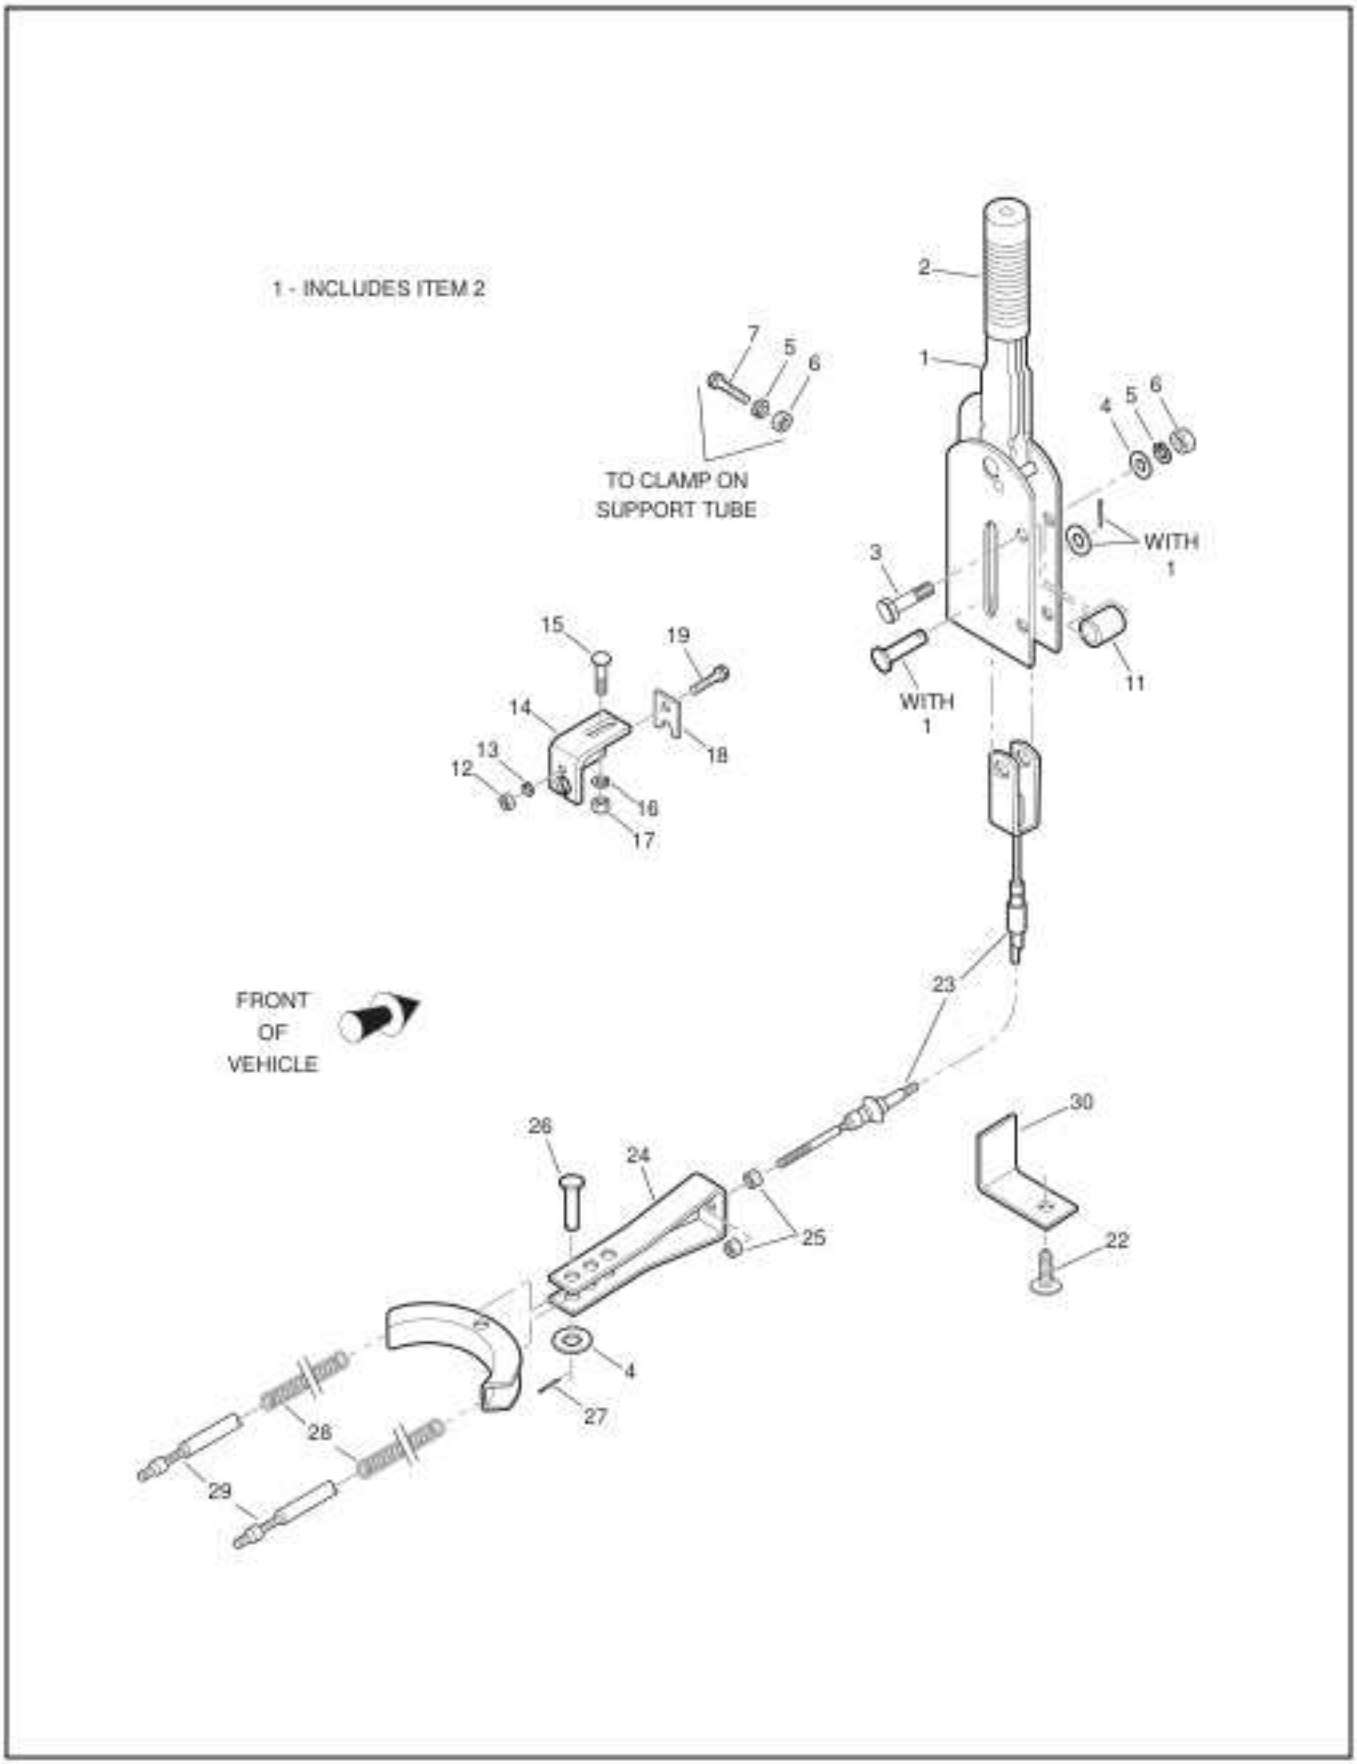

Should an asterisk (*) appear in the part number column on the parts list page, read upwards until a part number is found. The part number is the lowest assembly sold by Service Parts. The asterisk (*) indicates that the part depicted is not available for purchase.

NOTE: Descriptions are indented under the assembly that they are used on. That assembly is, in turn listed under the assembly that it is used on. This process is repeated until the highest final assembly is reached.

To facilitate the maintenance and repair of the vehicle, a Technician's Repair and Service Manual is available from the Service Parts Department.

HOW TO USE THE SERVICE PARTS MANUAL

⚠ WARNING ⚠

When replacement parts are required, use genuine Cushman parts or parts with equivalent characteristics including type, strength and material. Failure to use proper replacement parts may result in product malfunction and possible injury to the operator and/or by standers.

Illustrations in this manual are for parts identification ONLY. These illustrations may not depict actual positioning of component parts and should NOT be used as assembly diagrams. Doing so may result in improper assembly, leading to sudden failure.

Cushman Inc, a Textron Company, reserves the right to make changes at any time, without notice, in specifications and models and also to discontinue models and accessories designed to be used on these models. The right is also reserved to change specifications or parts at any time without incurring any obligation to equip same on models manufactured prior to date of such change.

While the information contained in this parts manual is based on the latest product information available at the time of publication, the continuing accuracy of this parts manual cannot be guaranteed.

ACCESSORIES

⚠ WARNING ⚠

In some cases accessories must be used in conjunction with other accessories to maintain safe operating conditions for a vehicle. Display of an accessory in this manual does not imply it can be used on any other vehicle. Using an accessory in a non-recommended application may create unsafe operating conditions.

NEVER attach ANY electrical device or accessory to this vehicle which is grounded to the vehicle frame.

VEHICLE IDENTIFICATION

THESE IDENTIFICATION NUMBERS MUST APPEAR ON ALL CORRESPONDENCE CONCERNING THE VEHICLE.

VEHICLE MODEL NUMBER/ MODEL YEAR & SERIAL NUMBER

The vehicle model number decal is located on upper left portion of kick panel. The complete (10) ten digit number is required to identify certain parts.

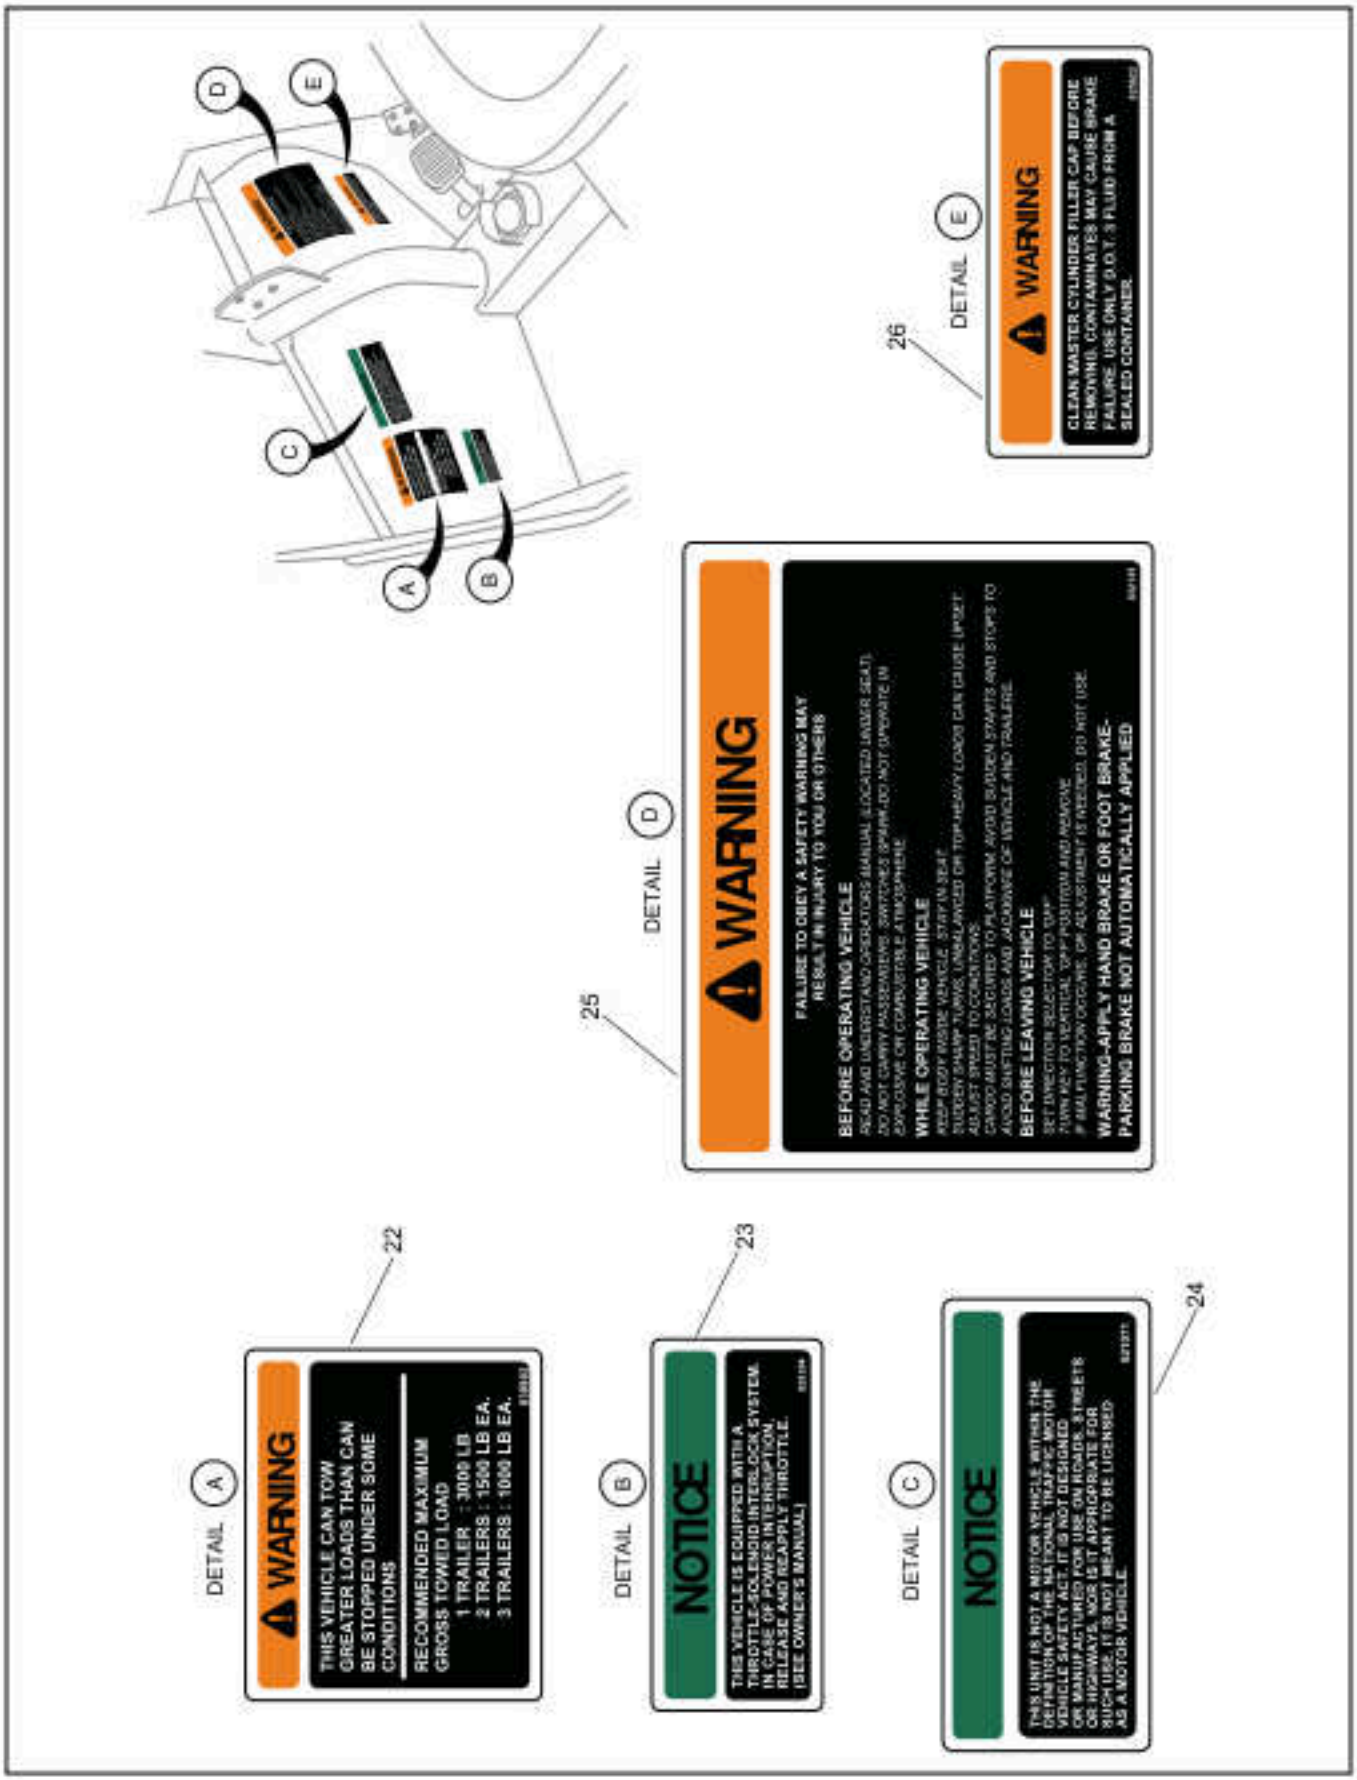

Model Number, Model Year and Serial Number on Decal

The vehicle serial number and model number are stamped on top of the right rear wheel well under the deck.

Vehicle Serial and Model Number on Top of Wheel Well
