Operation & Maintenance Manual

Owner's Manual TM–8366 as printed in January, 1971, is reprinted as a service to customers with these loaders which are not manufactured currently.

The manual was originally printed when operator guards or enclosures were recommended as optional features. All Bobcat loaders manufactured since January, 1975, have operator guards or ROPS (Rollover Protective Structures) as part of the standard loader.

Operators and owners are now informed that operator guards or ROPS are available from your dealer and strongly recommended by the Melroe Company for all Bobcat Skid Steer loaders.

WARNING: ALWAYS USE OPERATOR GUARD AND SEAT BELT.
