When ordering Control Cable Index 1, 2, 3 & 4 (119203-001), specify the number of feet required for your specific truck as noted in the chart. The cable can also be purchased in 76 m (250 ft) rolls (part no. 119203-002) or 152 m (500 ft) rolls (part no. 119203-003). Cut the cable to the length required for your truck.

If cable failure has been caused by routine wear, etc., it is recommended that all control cables be replaced. If cable failure has been caused by cutting, tearing, or other than normal wear, a single cable can be replaced. Check the remaining cables condition and if questionable, replace all control cables.
