Abbreviations used

Abbreviation	Description
AR (**A**s **R**equired)	Indicates an unspecified quantity; to be ordered as required.
F/C (**F**reezer/**C**orrosion)	Cold store truck with extra corrosion protection
NA (**N**ot **A**vailable)	Not available.

Conventions

Brief description of equipment

Three components of the truck data number are used to assign the truck's equipment to the parameters.

- Model number
- Steering type
- Operator position type

The number 3040MF for example designates a WT 3040 with mechanical steering and a folding platform.

See page 5 for details of the truck data number.
