ILLUSTRATION AND TEXT

The arrangement of this parts catalog is for easy identification of Case parts. All parts are illustrated in "Exploded Views." This places each part in normal reference to each other. Reference numbers are used in the illustrations. These numbers are in reference to those on the text pages. The text pages list reference number, part number, part description and the amount required (Quantity).

UAR

"Use As Required" in the amount required column is an indication the number of parts used is controlled by service.

REF

"Reference" in the parts number column is an indication this part has many applications or has special service information.

TEXT DESCRIPTION

An assembly may contain many service items. The component parts of an assembly will be indented. The amount required column will list the number of components required for a complete assembly or sub-assemblies. See example.

INDEX

A numberical index which lists the part number and subsection page number on which the part number is located, is on the last pages of this catalog.

CATALOG CHANGES

Changes to the product will make it necessary to revise or add pages to this catalog. Each new or revised page will have a new issue date. A cover sheet will list all pages released for each revision. All revised and new pages must be put into the parts catalog as soon as they are received.

PARTS ORDER

Order must give the complete description, correct part number, the total amount required, the product model, all the necessary serial numbers, the method of shipment and the shipping address.

NSS

"Not Serviced Separately" in the part number column is an indication this part is not available for repairs.
