GENERAL INFORMATION

Indexes

This Parts Catalog is arranged for easy identification of Genuine CASE Service Parts. An alphabetical index is provided at the front of this Catalog to locate the major groups or assemblies. A numerical index at the rear of the Catalog gives the part numbers and the pages on which they are described.

Illustrations

All parts are illustrated in "Exploded Views" which show the individual parts in their normal relationship to each other. Reference numbers are used in the illustrations. These numbers correspond to those in the "Reference Number" column and are followed by the part number, description and quantity required.

Orders

Orders should plainly specify co part number, full description, quantit quired, machine model and engine n machine and engine serial numbers, m of shipment and shipping address.

Changes

When changes to the machine m necessary, revised pages for this boo be issued. The revised pages will be i with the same page number as thos replace and the "issue" number an will be advanced.

It is imperative that revised Parts pages be inserted into their respective Books as soon as received. Failure to will lead to confusion and defeat the pu of the book.
