Indexes

This parts catalog is arranged for easy identification of parts. The Alphabetical Index at the front of the catalog gives location of major groups and assemblies. The Numerical Index at the rear of the catalog gives part numbers and the page on which they are listed.

Orders

Orders should specify correct part number, full description, quantity required, machine model and engine model, machine and engine serial numbers, method of shipment and shipping address.

Illustrations

All parts are illustrated and numbered in "exploded" views. Each part is shown in its normal relationship with the other parts in the illustration. The circled numbers correspond to numbers under REF. on the following page.

Changes

When changes are made to the machine, revised pages for this catalog will be issued. These pages must be inserted into your catalog as soon as they are received. Failure to keep your catalog up to date will result in confusion and may cause you to order wrong parts.

Description, Quantity, and Machinery Items

All parts are briefly described under DESCRIPTION. The quantity used is listed under REQ'D. Notice in the example below that the description of some items is moved in (indented) from the left-hand margin. An indented item is part of the item under which it is indented. The example shows that six track roller assemblies are used on the machine. Each track roller contains two nuts, two washers, two block and retainers, two "O"rings, and two face seal assemblies (indented items 1 thru 5). The face seal assemblies are further divided to show individual parts (items 6, 7, and 8).

Machinery items (Mach. Item) must be ordered from the Machinery Price List. See item 9 in the example.

REF.	PART NO.	DESCRIPTION	REQ'D.
	R 27948	ROLLER ASSEMBLY - track, single flange	6
1	131- 737	NUT - hex., lock (3/4" - 10 NC)	2
2	R 29429	WASHER - special	2
3	R 27951	BLOCK AND RETAINER - seal	2
4	A 7156	SEAL - "O"ring	2
5	D 35267	SEAL - face	2
6	NSS	BODY - seal, split	1
	D 36826	KIT - repair	1
7	NSS	SEAL - rubber	2
8	NSS	RETAINER - plastic	1
9	Mach. Item	FRAME - mounting (See page 2 or 3 for ordering)	1

Right-Hand and Left-Hand Sides

Right-hand and left-hand sides (abbreviated to R.H. and L.H.) of this machine and mounted equipment are determined by standing at the rear of the unit and facing the direction of forward travel.
