BACKHOE

SPECIAL NOTICE
WHEN ORDERING ANY BACKHOE PARTS FROM THIS CATALOG

Since a number of production phases are listed which involve two different Backhoe Control Valves and two different Stabilizer Control Valves, check carefully to be certain which valves your Backhoe has.

Each listing page in the Backhoe section has been titled to show which combination of Backhoe Control Valve and Stabilizer Control Valve is used. The difference between the Case and Commercial Backhoe Valves is visually noticeable as is the difference between the Cross and Cessna Stabilizer Control Valve. These visual differences can be noted on the parts list pages as follows:

Commercial Backhoe Valve - Pages 280 and 281
Case Backhoe Valve - Pages 294 and 295
Cross Stabilizer Valve - Pages 306 and 307
Cessna Stabilizer Valve - Pages 308 and 309

Serial number blocks were recorded as these various valve combinations and production phases were produced. Each page in the Backhoe section carries a block as it applies to that valve combination. Check your Backhoe serial number before ordering any parts.
