00 Color Foldouts for this Marker Insert

Some documents do not use consistent page numbering. This makes it difficult to insert pages that were extracted from the pdf document to meet printing specifications.

We use this marker insert set to assist in the rebuilding of the pdf or assembly of the printed document. This marker insert is a visual point in the pdf or printed document for inserting the foldouts.

This marker insert has two pages to balance the right-hand and left-hand pages when printing duplex pages. The first page also shows the foldout file name to be inserted into the document.
